

# DEVICE CHARACTERISTICS

## PORTABLE OZONE GENERATOR

### OTriKS.10MB

#### OZONE (O<sub>3</sub>)

- Purifies air and surfaces.
- Destroys viruses and bacteria.
- Eliminates unpleasant odors.
- Efficiency – up to 99 percent.

#### APPLICATION

- OTriKS.10.MB is suitable for any premises up to 200 m<sup>2</sup>.
- Can operate by the internal timer.
- The durability of the ceramic ozone plate is up to 20,000 hours.
- Ventilation of the premises is necessary after purification.
- For unoccupied spaces only. Ensure that no people (and pets) are in the room.

#### TECHNICAL SPECIFICATIONS

Voltage	220 V, 50Hz
Energy consumption	110 W
Ozone output	10 g/h
Measurements	237 x 180 x 175 mm
Housing colour	Blue
Weight	3 kg
Working mode	Timer or manual mode

	Recommended ozonation time						
Size of premises (m <sup>2</sup> )	20	30	50	70	100	150	200
Duration of ozonation (min.)	<i>10</i>	<i>15</i>	<i>30</i>	<i>45</i>	<i>60</i>	<i>90</i>	<i>120</i>
