

ADVANTAGES:

- Calibrated and metrologically certified sensors;
- Recording of history and peaks;
- Continuous monitoring of gas concentrations 24/7;
- Data management and analysis;
- Alarm analysis;
- Compact and easy to install;
- Technical maintenance and support.

Not only monitoring, but also remote control

A small monthly subscription fee

Accessible via any web browser

Ensuring data security

Continuous operation

Long-term data storage

MODELS:

OTriKSENS A-ROMA
